README

Title: README.md (examples-sasbdb) Author: jdww Date: 17-Feb-2017 Updated: 19-Feb-2017

Example Files

Example files for the SASBDB content request service.

onedep_biocuration_apikey_sasbdb.jwt	JSON Web Token API Key
request-entry-report.py	Python example for entry-level content request
request-entry-report.sh	CLI example for entry-level content request

Example Service Content Type Definitions

Example Entry-level Content Definition

The following JSON snippet describes an example entry-level content type definition. The content items refer to PDBx/mmCIF category and attribute names.

```
"report-entry-example-sasbdb": {  
  "content": {  
    "pdbx_database_status": [  
      "status_code",  
      "author_release_status_code",  
      "deposit_site",  
      "process_site",  
      "recvd_initial_deposition_date",  
      "date_of_NDB_release"  
    ],  
    "struct": [  
      "entry_id",  
      "title"  
    ]  
  }  
}
```

```
    ],
    "database_2": [
      "database_id",
      "database_code"
    ],
    "entity": [
      "id",
      "type",
      "src_method",
      "pdbx_description",
      "pdbx_number_of_molecules"
    ],
    "entity_poly": [
      "entity_id",
      "type",
      "nstd_linkage",
      "nstd_monomer",
      "pdbx_seq_one_letter_code",
      "pdbx_seq_one_letter_code_can"
    ],
    "audit_author": [
      "name",
      "pdbx_ordinal"
    ],
    "pdbx_database_related": [
      "db_name",
      "db_id",
      "content_type"
    ]
  },
  "conditions": {},
  "type": "entry"
}
```
